

How does the UltrOZ Elite therapy work?

Low Intensity Therapeutic Ultrasound (LITUS)

Sphere of Treatment

Diverging beam continuous wave delivery provides treatment area of 2-3 inches in diameter

Preset with ideal Intensity and frequency to provide longer duration and larger saturation volume

UltrOZ provides sustained ultrasonic energy which penetrates and saturates tissue, enhancing the body's ability to heal by increasing:

- cellular temperature
- blood circulation
- cross-tissue nutrient transfer
- local cell activity through mechanical wave interaction

Quick Set Up in 4 Easy Steps

1. Apply Ultrasound Gel
2. Place the UltrOZ unit on the problem area site
3. Secure the UltrOZ unit with the recommended Application Wrap
4. Turn the UltrOZ unit on

PERFORMANCE & RECOVERY THERAPY

Help Your Horse Heal Faster and Recover Stronger!

UltrOZ represents the next generation in safe, convenient and effective ultrasound therapy that owners and trainers are able to apply themselves. UltrOZ takes clinical therapy out of the doctor's office and puts it into the barn!

UltrOZ is Clinically Proven for:

- Reducing swelling & inflammation
- Increasing flexibility
- Reducing pain and irritation
- Increasing healing response in tendon, muscle, & bone

UltrOz has been field tested by veterinarians and equine therapists, and is now being used extensively on the elite horse show circuits, racetracks, and training facilities to keep equine athletes at the top of their game. World-class riders like McLain Ward (show jumping), Steffen Peters (Dressage), and Tim McQuay (reining) are just a few of whose horses have benefited from the UltrOZ Elite.

Unattended Treatment... Portable & Wearable
